

BARE HAND SURGERY IN THE PHILIPPINES

What is Bare Hand Surgery ?

- Bare Hand Surgeons enter a person's body using his / her Bare Hands and manually removes diseased or dead tissues, tumours, calcium deposits and other matters that should not be there. This is done without inflicting any pain, coming out without leaving any visible marks or scars.

Impossible? Only according to modern scientific standards. I have been involved with Bare Hand Surgery since 1998 and I have witnessed and filmed many major operations performed in minutes without anaesthesia or drugs of any kind.

What conditions can be treated ?

The following represents only a few examples of conditions I have seen treated by the various Bare Hand Surgeons I visit:

- Seven years ago, Bare Hand Surgery was performed on a friend of mine suffering from Parkinson's disease. This successfully stopped the progression of the disease for many years.
- A Psychic surgeon cleared "growths" from around my prostate. He then left a Kleenex tissue inside my body overnight to prevent the seeping of blood back in the testicles (I could feel the tissue inside me).
- I had a 12" tumour removed from my large intestines. I was eating a normal meal half an hour later.
- A surgeon cleared the ovaries and fallopian tubes of a patient.
- Another patient had 12 feet of growth removed from his colon. He had been suffering from IBS for years. IBS is now gone.
- I had 42 tumours removed from my liver over a period of two weeks in September 2001. This was witnessed by 5 participants.
- The eyes of a person suffering from cataracts were "cleaned"
- One member of our group had growths that were attached to her spine removed. This lady had had problems moving her head fully and had suffered from chronic pains in her shoulders for many years. The instant improvement to the head was obvious and her shoulder pains have now completely disappeared. Months of physical therapy had previously had very little impact.
- One surgeon removed many diseased tissues from another group member. This man was gradually losing the use of his hand and arm and the left side of his body was slowly being paralysed. He is now well and full of energy.
- I witnessed two different Bare Hand Surgeons successfully re-

move **deep brain tumours** from two different patients.

- A "goitre" was cleared from a man's throat
- One surgeon removed numerous tumours from the reproductive organs of a patient who was suffering from terminal cancer. This person is now feeling alright
- One surgeon cleaned the arteries around the heart of a patient
- etc.... etc.. the list is too long to mention.

Most of this has been filmed and can

be seen on videotape.

Basically, Bare Hand Surgeons do not specialise in any specific disease. They work with "energy" on everything presented to them.

Is there any guarantee of success ?

There is no implied or explicit guarantee that, should you decide to come to the Philippines with our group, any surgeon will be able to help you with your health problem.

We strongly recommend that you seek medical advice and care for any medical condition from which you may suffer .

But please come to one of our free evenings / days when I will show the video tapes of our trip and answer questions. The event is free of charge and no pressure will be put on you to visit the Philippines.

Why go to the Philippines?

Participants on the trips go for various reasons:

- Some go because Filipinos are extremely friendly and the stay at the sea side makes it a very attractive beach holiday with some healing and learning.
- Some go because they have a medical condition that baffles modern medicine.
- Some are just curious about Bare Hand Surgery
- Some have had a health problem for many years and would like some help with it.
- Some go to take part in Patrick's course (more latter)

Whatever your reason for going, remember that if you have a medical condition, we do not guarantee that any healer will be able to help you and that you should consult a medical practitioner.

How can I learn more?

Should a group of people be interested in going to the Philippines, please contact us. If you live a reasonable distance from London, we will come to see you, show you our video and answer all your questions. No pressure will be exercised for you to take part in the trips.

William Nonog Psychic Surgeon

Trip leaving on:

Or 13 August 2004

Or 3 December 2004

William is in his early 40s.

William is my favourite healer in the Philippines. He is extremely gifted, approachable and fun to be with.

He spends a lot of time healing local Filipinos, which is nice. Each time I visited William, his surgery room was full of local people waiting their turn for healing. William can treat 100+ people in one morning.

He spends more time on foreigners.

William bounces with energy and never seems to be tired. He is known as the Kangaroo healer. The reason for this is that William works extremely quickly (and efficiently). He has three couches in his practice room and keeps jumping from one to the next, always smiling.

William is extremely likeable and playful. I remember one day when I wanted to take a shot of his fingers full length in a patient's body but he was so quick that I missed the shot. He looked at me and said "you want to take picture?". I said, "Yes". With a big grin on his face, he plunged his index finger back in the person and with smile said: "go ahead" and posed for the picture.

William spiritual energy is very good. The hundreds of local Filipino who flock to his practice every week know it.

He uses a white cloth as an X-ray machine to diagnose his patients. He lays the cloth over the patient, stares at it and within seconds knows exactly what is happening inside their body

Two big pluses when visiting William:

William can work in Bauang (see information on this location further on). This is wonderful as the setting at the "China sea" hotel there is magnificent and it allows us to combine a most relaxing beach holiday with healing.

William gives a course to explain the spiritual energy at work in bare hand surgery. This helps the patient understand the healing process and is very beneficial.

Because of his friendly approach and amazing healing power, William is one of my favourite healer in the Philippines.

Information on Bauang

The hotel we have chosen in Bauang is situated right on the beach and if you like swimming this is the place. The water temperature usually is around 28C and very pleasant indeed. A long sandy beach

with very few tourists can be accessed just outside the hotel.

The hotel provides deck chairs and if you are the type to do nothing all day and just lie down in the sun, you will enjoy the setting.

Those of you who are a little more active may want to experience Scuba

diving with a qualified instructor next door to the hotel.

Local fishermen will be keen to take you a boat ride away to "White sand" or "100 islands". Your lunch for the day will be fished during the trip and barbecued fish cooked by the fishermen can be enjoyed at your destination.

The town of San Fernando is only a few miles away and can be accessed by hiring a trike (motorbike with sidecar) or by taking the local Jeepney (minibus). The market is well worth a visit and many bargains can be had in San Fernando.

Lunch is at the hotel restaurant overlooking the beach or at a local place. The cooks will cater for special dietary requirements if given some notice.

The evenings are free and visitors sometimes meet to practice healing, talk, meditate, have a drink or go out.

Sunset is fantastic and well worth a few pictures.

Of interest :

Massage or Shiatsu costs about £5 to £7 in the Philippines. Many visitors avail themselves of this by having regular massages.

If you enjoy swimming, this is the place. The water temperature is about 28° and wonderful. Make sure you bring your swimming gear with you.

Who is your organiser?

Patrick is of French nationality. He started his career in computers when he was the founder and owner of a software house. The deep recession that struck the UK in 1990/1 saw an end to that business.

This was wonderful as after many years of stress, Patrick's health was very poor. He had serious problems with his liver (like most French men), large intestines and was suffering from arthritis in his left knee.

For many years, Patrick had tried to take care of his health by using natural remedies and he had a fascination for Alternative Therapies.

At last the recession gave him the time to study as there was no customer in sight from his computer business. He first studied Bach Remedies and having ran out of books to read on the subject, he moved on to Aromatherapy. He joined various evening courses in 1990 and in 1991 qualified in Anatomy & Physiology and Massage. He then pursued his studies in Aromatherapy and Reflexology and qualified in both.

His health improved but his liver was still cause for great concern. In 1991 he became Macrobiotic and started to eat and live a much healthier life. His Macrobiotic studies allowed him to study the effects of different food on the body, the effects of chemicals, and the cause of disease. He followed courses in Oriental Diagnosis, Shiatsu, Feng Shui, Nine star KI etc..

Patrick started studying various method of healing in February 1993, starting with Reiki and then progressing to Seichem and Karuna. Patrick now is a Master is all 3 methods of healing.

Nowadays, Patrick teaches Massage, Aromatherapy, Reflexology, Macrobiotic, Oriental Diagnosis, Indian Head Massage, Acupressure Massage, Reiki, Seichem and Karuna. He runs a team of teachers / friends who like him have a fascination for natural healing.

Patrick also gives Macrobiotic consultations to people with poor health. His belief is that in order to eradicate a disease, you must go back to its cause and try to suppress it. He is currently studying Metabolic therapies and the use of B17 (Laetrile / Amygdalin), Essiac, Hawaii Honi Juice, Coffee Enemas, EFT (Emotional Freedom Therapy) to further help his clients.

He is currently writing a book (Don't Give Up). The aim of the book it to help people who have been diagnosed with a serious condition such as cancer and do not know who to turn to or what to do. The book will detail Patrick's natural approach with Cancer, heart problems and other serious health conditions.

Since 1998, Patrick has been working with Filipino Bare Hand Surgeons. He takes frequent trips to the Philippines with groups of people who believe their health can be improved by this form of healing.

His health problems are now kept in check through Macrobiotic living, Bare Hand Surgery and regular Alternative Therapy treatments

P.S: William Nonog will be lecturing in the UK on 10-11 July, 04. Please contact me if interested in the lecture or a consultation with him the week after.
